

PROFESSIONAL SUMMARY

Aspiring Software Engineer with firsthand experience in MERN stack development and proficiency in Java, JavaScript, React.js, Node.js, SQL, and MongoDB. Solid foundation in DSA, OOP, and RESTful APIs, seeking an SDE-1 or Software Engineering Internship.

TECHNICAL SKILLS

Languages:	Java (Primary – DSA), Python, JavaScript
MERN Stack:	React.js, Node.js, Express.js, MongoDB, REST APIs, JWT
Frontend:	HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, Responsive Design
Backend / DB:	RESTful API Design, MongoDB, MySQL, SQL
Dev Tools:	Git, GitHub, VS Code, Chrome DevTools, Postman, IntelliJ IDEA
AI Tools:	ChatGPT, Google Gemini, Claude (debugging, code explanation, rapid prototyping)
CS Concepts:	Data Structures & Algorithms (DSA), OOP, Problem Solving, System Design Basics

PROJECTS

Personal Portfolio Website

- Developed a fully responsive personal portfolio website showcasing projects, skills, and contact information. Implemented clean, semantic markup with smooth scroll animations and cross-browser compatibility.
- Deployed on Vercel with custom domain configuration for live accessibility.
- Tech Stack: HTML5, CSS3, JavaScript [Live Link ↗](#)

BlogForge-AI Powered Blog Platform[Still working on]

- Developed a full-stack blogging platform using MERN stack (MongoDB, Express.js, React.js, Node.js) with a responsive admin dashboard for blog management and comment moderation.
- Built modern, reusable UI components with React.js and Tailwind CSS, ensuring excellent user experience across devices.
- Designed RESTful APIs using Node.js & Express.js, integrated MongoDB, JWT authentication, and Image Kit for optimized image uploads.
- Implemented AI Content Enhancement using Google Gemini — after writing raw blog content, users can generate improved grammar, better punctuation, enhanced readability, and professional tone with one click, replacing the original content.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Image Kit, Google Gemini AI [Live Link ↗](#)

EDUCATION

B.E. in Electronics & Telecom (EXTC) — Atharva College of Engineering, Mumbai University | CGPA: 7.03 | Expected: 2026
HSC (Science) — New Viva College, Virar | 83.17% | 2021

CERTIFICATIONS

- Data Analytics — Deloitte (2024) [\[Certificate View\]](#)
- Frontend Development — Edu skills Academy [\[Certificate View\]](#)
- Frontend Development — Codesoft [\[Certificate View\]](#)
- DSA Practice — LeetCode: 67+ Problems Solved [\[Leetcode Profile\]](#)

RESEARCH PUBLICATION

IIoT-Based Predictive Maintenance System Using ESP32, Sensor Fusion, and Machine Learning [\[Certificate View\]](#)

International Journal of Research Publication and Reviews (IJRPR), Vol. 7, Issue 4, April 2026

- First Author of a research paper on an AI-powered IIoT predictive maintenance system.
- Proposed an ESP32-based solution integrating sensor fusion, MQTT, and a hybrid CNN-LSTM model achieving **97.3% fault detection accuracy**.
- Designed for Industry 4.0 applications with real-time monitoring and predictive maintenance.
